

Tom's Vegetable Garden

Name:

- Talk about the story
- Tell the story to a friend

Note to the teacher: Start off with a discussion on how plants grow. Use this story for Emergent Reading skills where the learners 'read' and interpret the pictures to make up their own story. Ask them to think of an end to the story (what they did with all the carrots) and imagine what happens next. Let them tell the story to a partner or to a group.
