

Valentine's day butterfly

Let's make a Valentine's day butterfly. You will need: an empty toilet roll, two pipe cleaners, two googly eyes, the butterfly template on the following page, glue paste, a pair of safe scissors and some colouring pencils.

Instructions

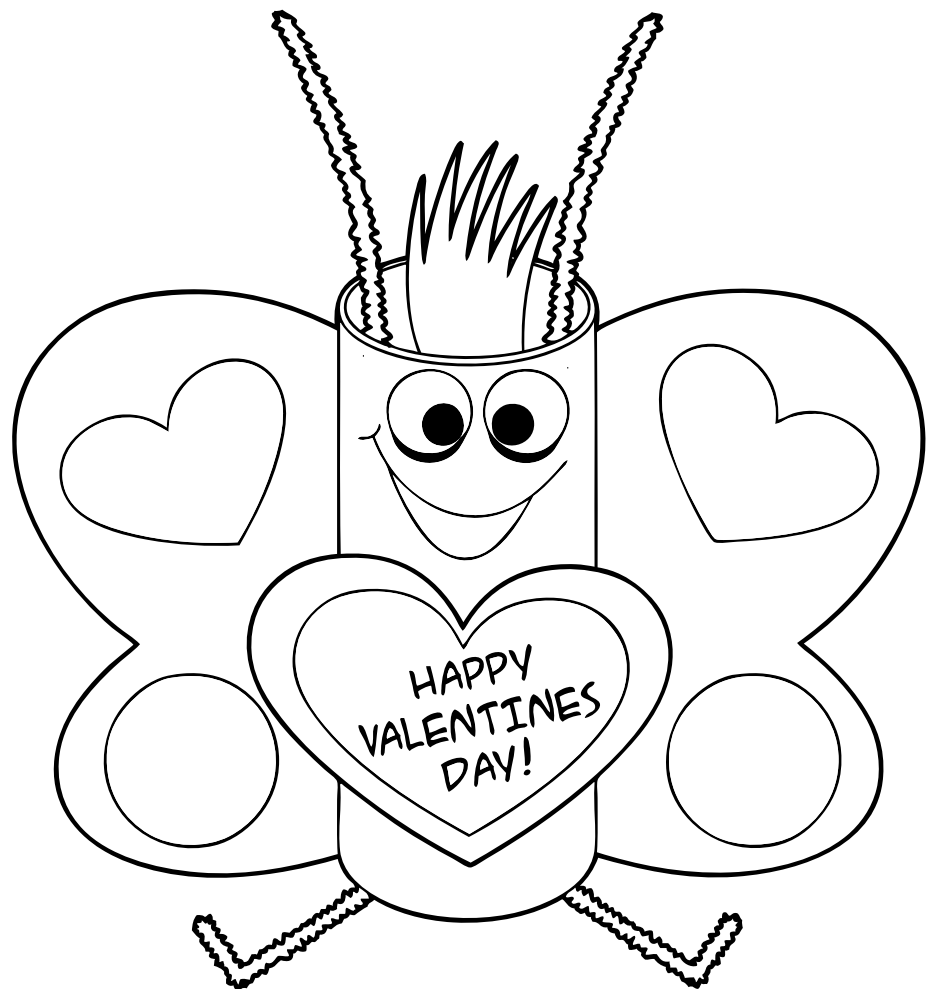

1. Cut out the wings, heart and hair on the butterfly template and colour them in.
2. Glue the wings to the toilet roll and glue the heart on the opposite side. Remember to take note of which side you coloured and make sure it is visible.
3. Glue the googly eyes in position on the same side as the heart (front).
4. Draw a mouth under the eyes.
5. Glue the hair above the eyes.
6. Cut the pipe cleaners in half and glue two of them either side of the hair to make antennae.
7. Bend the other two pipe cleaners to make little feet and then glue them to the bottom of the toilet roll.
